

## Let's say "adios" to "Vista Tranquilla."

Help save the missing piece of Guana from bulldozers. Don't let 75 acres of wildlife habitat be destroyed.

The Outpost – private property tucked into the northern end of Guana Preserve - is in danger of becoming another Planned Unit Development. Ponte Vedra Corp. seeks to change it from conservation to residential. Join our fight to stop the destruction of conservation land that is 97% surrounded by GTM-NERR. Polluted run-off from 66 proposed homes could contaminate Guana River which flows into the only National Estuarine Research Reserve on Florida's east coast. There are 74 upland acres of wildlife habitat and countless animals in peril.

Please go to [SaveGuanaNow.org](http://SaveGuanaNow.org) and click on the "Latest Update" tab on the menu at the top. You'll see exactly how you can help. Keep following our latest updates.

**TWO IMPORTANT PUBLIC HEARINGS** are coming up, and we need you to attend! August 15<sup>th</sup> and Sept. 17<sup>th</sup>. Wear a white shirt to show you oppose the development.
